Languages

Languages: Greek (Native), English (Fluent)

Education

BSc	Athens University of Economics and Business , Computer Science	Athens, Greece Oct 2023 – present
BSc	Vilnius University , Exchange Studies in Mathematics & Informatics (Erasmus+)	Vilnius, Lithuania Sept 2025 – Jan 2026
HSD	1o Lykeio Lauriou , High School Diploma Graduated top of class with a GPA of 19.4/20	Laurio, Greece Sept 2020 – June 2023

Projects

Decyra DECYRA is an AI-powered Android app for Computer Science students, offering personalized academic and career guidance through a RAG-based mentor. It also includes real-time messaging, a forum, Face ID authentication, and WebRTC video conferencing, built on Firebase, AWS, and Supabase.	Feb 2026 – June 2026
Raki SaaS System Raki is a full-stack SaaS POS web application developed with a Spring Boot backend and a React frontend, designed to support small businesses with menu management, orders, payments, reservations, staff administration, taxation, and business operations. The backend provides REST APIs, JWT-based authentication, role-based security, and modular business logic, while the frontend delivers a responsive and interactive user experience.	Sept 2025 – Jan 2026
Distributed Systems Casino Distributed casino application based on a MapReduce framework, enabling parallel processing and execution across multiple PCs.	Feb 2026 – June 2026

Skills

Backend Development: Spring Boot, Spring Security, REST APIs, JWT authentication, business logic, persistence, database design.

Frontend Development: React, Thymeleaf, responsive UI development, multi-step workflows, form handling, Fetch API integration.

Cloud Computing: Firebase, Supabase, AWS, real-time messaging, secure backend services, cloud-based AI integration, scalable architecture.

Android Development: Kotlin, Jetpack Compose, Java integration, mobile UI design, Android app architecture.

Parallel Programming: CUDA programming, OpenMP, POSIX Threads.

Distributed Systems: Client-master-worker architecture, MapReduce, inter-node communication, task scheduling, fault tolerance, active replication, heartbeat

Soft-skills

Soft Skills: Problem-solving, Interpersonal and Social Skills, Quick Learner, Teamwork, Adaptability, Task Organization, Multitasking.
